

Indsæt Click\_tag manuelt i banner kode modtaget som zip-fil

1. Udpak zipfil
2. Åben 'index' filen med notepad (vælg åben med)
3. Indsæt:

```
<script type="text/javascript">  
var clickTag = "http://www.dinURL.dk"; </script>
```

&

```
<script>  
    function ct(){  
        window.open(window.clickTag);  
    };  
</script>
```

Se nedenstående eksempel – Det er vigtigt at det indsættes i <head>, altså et sted efter <head> men inden </head>, derudover må det ikke indsættes inde i et script. Altså ikke i mellem <script> </script>, vælg et sted efter </script>.

```
<!DOCTYPE html>  
<html>  
<head>  
    <meta http-equiv="Content-Type" content="text/html; charset=utf-8"/>  
    <meta http-equiv="X-UA-Compatible" content="IE=Edge"/>  
    <title>320_160_formulaleasing</title>  
  
<!--Adobe Edge Runtime-->  
    <script type="text/javascript" charset="utf-8" src="https://animate.adobe.com/  
runtime/6.0.0/edge.6.0.0.min.js"></script>  
  
    <script>  
        var parseQueryString=function(){var e=window.location.search;var  
t={};e.replace(new RegExp("(^[?=&]+)(=([&]*))?", "g"), function(e,n,r,i)  
{t[n]=i});return t};var params=parseQueryString();clicker=params["clickTAG"];  
    </script>  
  
    <style>  
        .edgeLoad-EDGE-591572058 { visibility:hidden; }  
    </style>  
  
    <script>
```

```

AdobeEdge.loadComposition('320_160_formula_leasing', 'EDGE-591572058', {
  scaleToFit: "none",
  centerStage: "none",
  minW: "0px",
  maxW: "undefined",
  width: "320px",
  height: "160px"
}, {"dom":{}}, {"dom":{}});
</script>

```

```

<script type="text/javascript">
  var clickTag = "http://www.formula-leasing.dk/flexleasing/?
  utm_source=bilbasen&utm_medium=desktop&utm_term=banner&utm
  _campaign=bilbasen";
</script>

```

```

<!--Adobe Edge Runtime End-->

```

```

<script>
  function ct(){
    window.open(window.clickTag);
  };
</script>

```

```

</head>

```

```

<body style="margin:0;padding:0;">
<div id="ctbox" onclick="ct();">
  <div id="Stage" class="EDGE-591572058">
    </div>
  </div>
</body>
</html>

```

4. Gem index filen
5. Zip mappen igen
6. Upload I DFP

### Sample click tag insertion

Here's an example of a click tag inserted in an HTML document:

```

<html>
<head>
<meta name="ad.size" content="width=300,height=250">
<script type="text/javascript">
var clickTag = "http://www.google.com"; </script>
</head>
[The rest of your creative code goes here.] </html>

```

Your creative must use the click tag variable as the click-through URL:

```

<a href="javascript:window.open(window.clickTag)">

</a>

```
